

May/June Report

- During the past 2 months we could not visit some families but we have access to many of the diabetics as we organize a diabetes workshop, we communicate with some through phone calls or text messages and others through WhatsApp as well. As we said earlier we will concentrate more on kids and newly diagnosed. We realized that still the problem is about testing the glucose levels and insulin intake.
- Amie Nyang, Adama Low, Mariama Badjie, Musa Conteh, Medina Sarr, Fatoumata Singhateh, Kaddijatou Jallow, Mustapha Darboe, Medina Jarju, Adama Bah, Awa Jallow, Sait Dem, Muhammed Willan, Kumba Bah, Kaddijatou Jallow, Modou Lamin Kujabi, Ebrima Mendy, Satang Jaiteh, Oumou Jallow, Fatou Janha, Sait Dem, Ebrima Jallow, Isatou Kombeh Njie.
- We got to know some of their problems as they say, all of the problems are the diet control, insulin intake and measuring, we talked to them and as time goes on they will get to know more about it.
- 29/05/2022: We organized a diabetes workshop at Medina Jarju's compound in Nema with 16 diabetics, it was a helpful and educative and each and everyone of us all learnt a lot.
